Proudly represents the following HVAC manufacturers

III[®] MULTISTACK[®]

- **Air & Water-Cooled Chillers & Custom AHUs/DX**
- Modular & packaged chillers for HVAC, industrial, heat-recovery, geothermal, MRI, data centers. Up to 2000 tons in single chiller
- Variable scroll, screw & Turbocor compressor options
- Pump skids, free-cooling, split chillers, low temp

- **Energy Recovery & Dehumidification**
- AHUs, Chilled beams & pump modules
- Hydronic recovery pump skid & controls
- Passive & active desiccant dehumidification
- True 3 angstrom wheel technology

BUFFALO AIR HANDLING

- **Custom Air-Handlers**
- Up to 4" wall, aluminum/stainless/galvanized casing
- Specialty components & designs for hospitals & higher-ed
- Fully custom – 100,000+ CFM capability

- **Computer Room Cooling**
- Indoor and outdoor mounted precision cooling; Ultrasonic humidification
- In-row, perimeter, ceiling and liquid-to-chip configurations; CW & DX
- Indirect Evaporative Cooling
- 1 – 215 Tons (4 – 750 kw)

WILLIAMS

- **Fan Coils & Air-Handlers.**
- Hi-rise vertical stack, horizontal/vertical concealed & exposed, AHUs up to 12,000 cfm
- ECM, customized casings, coils: steam, HW, CHW, DX, electric

- **Florida Heat Pumps**
- Full range WSHPs ½ - 60 tons
- Water-to-water HPs 2 – 35 tons
- 100% OA Rooftop WSHP 4 - 30 tons
- WSE, HGRH, best in class efficiency

- **Semi-Custom DX & Energy Recovery RTUs/DOAS**
- Cooling, heating, WSHP & Air-source HP configurations
- Packaged & split options, variable speed compressors

- **Data Center Cooling & DOAS**
- Indirect & direct evaporative cooling equipment. Desiccant technology
- Dehumidification & energy recovery
- Packaged & custom air-handling & DX rooftop units. Very high MRE values

- **Commercial Self-Contained & DX.**
- 1 to 70+ tons; air and water source heat pumps
- Ducted split systems; modular for 36" door opening
- 100% OA and energy recovery, vertical & horizontal

- **Adiabatic & Evaporative Cooling**
- High efficiency, low water usage, no chemical treatment
- Cooling towers, condensers, & drycoolers
- Water or DX
- Plate heat exchangers

- **Packaged Pumping Systems & Central Plants.**
- Chiller & boiler plants with controls & custom penthouse enclosures
- Custom pump skids & controls

- **Air-Rotation Units.**
- Manufacturing facilities, gyms and any large open spaces
- DX, CHW, HW, steam & gas, indoor/outdoor, custom layouts
- Alternate to packaged RTUs

Refrigerant Monitoring & Gas Detection

Fixed-Plate Energy Recovery

Custom DX & Water Coils

Modular semi-custom AHUs/ERUs
